Gentlemen:

Your solid waste disposal facility located in and near Sauget, Illinois was inspected on October 4, 10, and 17, 1979, by Patrick M. McCarthy, representing this Agency.

The inspections were conducted to monitor the underground fire on that part of the site south of the Alton and Southern Railroad tracks. Since the time that you were notified ten working days ago, some progress has been made. However, a serious concerted effort must be expended in order to contain and extinguish this fire.

This office will continue to monitor the fire to insure that appropriate action is taken.

Sincerely,

Kenneth G. Mensing, Southern Region Manager
